

Clubmaster 225

Clubmaster is a great main court alternative for clubs, universities, and recreational leagues of all levels – and it's the perfect side court unit for top competition gyms and arenas. The only down-sized unit on the market that uses the same size main beam as a competition unit, the Clubmaster is so strong it can support a competition level glass backboard and breakaway rim a full 225cm away from the front of the base – for safe clearance when play becomes spirited.

Framed, tempered glass backboard and dunk ring

Main beam long and strong enough for spirited play, including dunking.

Neck pad shown is optional.
Article: S6.50430

Infinitely height adjustable for youth play.

Side pads shown are optional.
Article: S6.S0440

Rear anchor standard.

Options available on clubmaster 225:

- DSF Dynamic Sub Frame (standard model is equipped with locking pedestal feet)
- 165cm backboard projection instead of 225cm.
- acrylic or fibreglass backboard
- side paddings to the base frame
- front locator pins for perfect positioning and excellent stability
- neck pad
- lever lift

Little Sam can also be supplied with either rectangular or fan-shaped fibreglass backboard

Easy-lift positioning

Side pads shown are optional. S6.S0705.

The Little SAM unit is specifically engineered and designed to accommodate a variety of needs. It is lightweight and has a small profile, so it can fit into places larger units won't go. And it is height adjustable up to 305cm to provide a suitable training station for youngsters of all ages.

Gravity Assist System – for perfect balance

The genius of Schelde's patented Gravity Assist System is in the simplicity of the operating mechanism, which is counterbalanced so perfectly that no assist device is needed at all! It is the very simplicity of this system that insures years of trouble free operation.

Little SAM

Designed as a highly portable shooting station for camps, clinics and practice sessions, Little SAM is also strong enough for spirited competition, including limited dunking. When price, space, or both are prime considerations, Little SAM provides the look and quality of a standard full-court system in a compact unit that is easy to move and set up. The adjustable rim height allows for teaching and play situations over the wide range of age and ability levels. Backboard projection at regulation play height is 152cm.

Little SAM

Equipped with rectangular fibreglass backboard 120 x 90cm, recreational breakaway ring and regulation net. No backboard padding. No floor anchor. No side paddings. Per unit. Article: S6.S0701
